¹ In our Vegan FitLine products we accept: Lactic acid cultures from plant agars which do not contain any animal products; Products from mushroom and bacteria cultures. | ² Ingredients from vegetable sources, from milk and milk products, lactic acid cultures, products from fungi and bacteria cultures, honey etc. Compliant with the rules of the EUV. | ³ Vitamin B6 (Pyridoxin), vitamin B12 (Cobalamin) and vitamin C contribute to normal psychological function. | ⁴ Rich in Zinc - contributes to normal acid-base metAutoshiplism.

The exclusive Nutrient Transport Concept (NTC) delivers the nutrients exactly when they are needed and where they are needed - to the cellular level, from inside and out.

In the FitLine nutritional supplement products the Nutrient Transport Concept, NTC, supports optimized nutrient intake so increasing nutrients' bioavailability. The FitLine cosmetic products support the skin's natural regeneration processes. Bioavailable ingredients such as carotenoids and thiotaine are channeled straight into the skin quickly and develop their anti-aging effect there. With FitLine you will feel and experience results on a daily basis that will thrill you.

FitLine products fulfill the strictest international quality and purity controls. Outstanding product quality according to the international GMP standards.

GMP – highest quality and safety

As a company, we have voluntarily agreed to have all the FitLine nutritional supplement products tested regularly for doping-relevant anAutoshiplic steroids/prohormones and stimulants.

* All the FitLine nutritional supplement products are on the Cologne List®. That list publishes products that have been tested by one of the World's leading IAutoshipratories for analyzing nutritional supplements for doping substances. More information can be found under: www.koelnerliste.com

**An Information by
TÜV SÜD ELAB GmbH
(Issue 03/2017)**

TÜV SÜD ELAB GmbH, a professional IAutoshipratory service provider, has successfully been working in the food, water and environmental analytics field as well as medical IAutoshipratory services for many years. The regular and independent analytics of selected parameters, conducted by TÜV SÜD ELAB GmbH on a regular basis, complement the manufacturer's own product controls.

The TÜV SÜD ELAB GmbH is a 100% subsidiary of TÜV SÜD AG. The quick and accurate analysis of a wide variety of samples as well as the expert advice from clients are among our most key business skills.

Product Quality regularly independently tested by TÜV SÜD ELAB
